## EQUALITY

Accelerate Prosperity in a new global initiative of MINNA aimed at supporting enterprise start-ups and small business in need of acceleration.

The focus is on women and youth (age 16-30) in rural towns, where economic opportunities often remain insufficient. It also targets entrepreneurs with low-income earning, the unemployed and those who have not completed primary or secondary education.

The initiative combines lean startup business modeling methodologies, mentorship, angel investment networks, a digital deal flow platform, blended learning and gender-lens and youth-lens approaches.

In most cases, the services reinforce the Network's wider efforts to address constraints to business growth in rural settings (e.g investments in energy, telecoms and infrastructure) and work on upgrading promising value chains as well as employable and soft skills.

These investments reduce business risks and expand opportunities for youth entrepreneurship and employment.

EDUCATE

We give grants to pay K-12 tuition for children in Syria, India and Africa. Education is not a luxury - it is a lifeline for children who don't have an opportunity due to circumstance. A safe learning environment gives children hope as they continue to learn and plan for a brighter future. An amount of \$60 can supply school fees, books and other supplies as a child needs to attend school for a year.

BOOKS

Books are the learning key to measure success in the classroom. More over, they make sure teachers and schools set goals and monitor progress. We give knowledge threwh Ebooks, collabrate with our partners at scholastic, amazon to fullfill our order globally.
